John Frank Weaver is chair of McLane Middleton's Artificial Intelligence Practice Group. His practice includes conducting risk assessments of AI systems, advising clients concerning AI policies and best practices, and counseling clients regarding emerging legal and practical issues in AI. John also serves on the steering committee for the American Bar Association's Artificial Intelligence & Robotics National Institute. He is the author of *Robots Are People Too: How Siri, Google Car, and Artificial Intelligence Will Force Us to Change Our Laws*, a contributing writer at *Slate* focusing on legal issues implicated by AI and autonomous devices, and a columnist for and member of the board of editors of *The Journal of Robotics, Artificial Intelligence & Law*. His current project at *The Journal* is an examination of the essential principles of Constitutional rights and how they apply to AI.
