1) Training and Experience:

Boston University Law School Negotiation & Mediation program (1995)

Rule 32 (previously Rule 170) mediation training (2000)

Rule 32 (previously Rule 170) refresher training (annually when offered)

State/Federal Court Mediation Skills Workshop (2009/10, 2015-present)

State/Federal Court Advanced ADR Training (2009, 2010, 2015- present)

Mediated/Arbitrated more than 350 cases.

2) Emphasis:

My emphasis in mediation and arbitration is based on 25 years in practice focused on business disputes, construction claims, environmental/toxic tort litigation, personal injury, and insurance coverage. Also, I was active in the trades as a builder/contractor and spent more than 14 years building custom homes and providing remodeling services, and therefore bring a unique perspective and knowledge-base to my mediation services in construction cases.

3) Personal Background:

I have stayed active in my former role as a builder/contractor. I have maintained my updated OSHA certification and continue to perform design and construction work when I can. I am (too?) often performing restoration work on my home, built in 1763. I acted as general contractor and personally built a log cabin on an island in the Casco Bay, Maine. And after we purchased the CullenCollimore office building, my law partner Brian and I co-designed, and I personally performed, a complete renovation of the interior of the office, from the wide pine floors through to the tin ceilings.

4) Fee for Services:

My rate is \$300/hr, split by the parties unless otherwise agreed in advance.
